

## POWER CAPTCHA Integration for OXID eShop

---

POWER CAPTCHA can be automatically integrated into your OXID eShop via our OXID module. You can individually select which sections or forms should be protected.

The following sections / forms are currently supported:

- Login forms
- Registration forms
- Checkout completion
- Contact form
- Password reset form
- Newsletter form
- Wished price form

The following describes how to install, activate and configure our OXID module.

### Preconditions

---

- You have purchased a POWER CAPTCHA license and entered the domain of your store in the "My account" section on power-captcha.com.
- You have installed OXID eShop in version 6.5 or 7.1.
- You use one of the default themes (APEX, Flow, Wave, Azure) or a child theme. When using custom themes, modifications may be necessary.

### Install the module

---

The module is installed on commandline via Composer.

1. First establish an SSH connection with the server on which the shop is installed.
2. Navigate to the root directory of your shop. You can identify the root directory as it contains the composer.json file, among other things.  
Example:

```
cd /var/www/oxideshop/
```

3. To download and install the module, execute one of the following commands in the root directory - depending on the OXID version used:

#### **OXID 7.1**

```
composer require power-captcha/integration-oxid-eshop:^2.0.0
```

## OXID 6.5

```
composer require power-captcha/integration-oxid-eshop:^1.0.0
```

Once the installation process is complete, the module is displayed in the OXID administration under Extension ⇒ Modules.

## Activate the module

1. Log in to the administration area of your shop. Click on “Extension” in the navigation on the left-hand side and then on “Modules” (see illustration).

2. The module list opens in the right-hand area. Click on the module “POWER CAPTCHA Integration for OXID eShop” (see illustration).

ESHOP ADMIN	ACTIVE	NAME
Master Settings		Eye-Able® Assist
Shop Settings		GDPR Opt-in
Extensions		Makaira Connect Essential
Themes		Mediathek
Modules		OxidEsales Module Template (OEMT)
		POWER CAPTCHA Integration for OXID eShop
		Summernote WYSIWYG Editor for OXID eShop

3. The “Overview” tab of the POWER CAPTCHA module is displayed in the area below. Click on the “Activate” button there. The button is located on the right-hand side of the screen (see illustration).

Activate

Once the module has been activated, a green checkmark is displayed next to the POWER CAPTCHA module in the module list (see illustration).

ACTIVE	NAME
	Eye-Able® Assist
	GDPR Opt-in
	Makaira Connect Essential
	Mediathek
	OxidEsales Module Template (OEMT)
	<b>POWER CAPTCHA Integration for OXID eShop</b>
	Summernote WYSIWYG Editor for OXID eShop

## Configure the module

In order for the module to function, you need to add an API key and a secret key in the module settings.

Furthermore, you need to select sections / forms that you want to protect with POWER CAPTCHA in the module settings.

1. Navigate to the administration area Extension ⇒ Modules and click on the POWER CAPTCHA module in the module list.

- Then click on the “Settings” tab (see illustration).

- The settings page of the POWER CAPTCHA module opens. Click on “General settings” to display the settings fields (see illustration).

- Enter your POWER CAPTCHA API key in the “API Key” field and your secret key in the “Secret Key” field (see illustration).

**Note:** You can find the API and secret key in the “My account” section on power-captcha.com (see illustration). Please also make sure that the domain of your OXID eShop is entered in the “Domain / hostname” field.

The screenshot shows the 'My account' page with a navigation menu at the top. The 'API Keys' menu item is circled in red. Below the menu, the 'Domain / hostname' field is filled with 'power-captcha.com'. The 'License type' is 'Enterprise'. The 'API Key' field contains '8H8M5G6e1gJlMefPqweQUM6PC5eE8AN9W' and the 'Secret Key' field contains 'K7U6AZ188N8Rto1qo40usc5U463eCwe5'. There are buttons for 'Edit API Key' and 'CAPTCHA configuration'.

- If needed, you can also define the check mode and the behavior in case of API errors in the general settings, as well as activate the debug mode. Further information about the settings is displayed when you click on the “?” symbol next to the each settings field.
- Now click on “Protected areas / forms” to select which sections or forms of your shop should be protected with POWER CAPTCHA (see illustration).

The screenshot shows the 'Protected sections / forms' settings page. The header 'Protected sections / forms' is circled in red. Below it are several checkboxes with question marks next to them, representing different shop sections that can be protected:

- ? Login forms
- ? Registration forms
- ? Checkout completion
- ? Contact form
- ? Password reset form
- ? Newsletter form
- ? Wished price form

7. Select the checkbox for the sections or forms that should be protected with POWER CAPTCHA. For example, “Contact form” and “Newsletter form” (see illustration). You can find further information to each section by clicking on the “?” symbol.

▼ Protected sections / forms

- ? Login forms
- ? Registration forms
- ? Checkout completion
- ? Contact form
- ? Password reset form
- ? Newsletter form
- ? Wished price form

8. Once you have entered your API key and secret key and selected the protected sections, you can click on the ‘Save’ button at the bottom to apply the settings (see illustration).

? Password reset form

? Newsletter form

? Wished price form

► On-premise settings

Save

**Note:** The settings under “On-premises settings” are only relevant if you are using an on-premises solution with a self-hosted POWER CAPTCHA endpoint. Otherwise, you can leave both fields empty.

## Result

Once you have configured the POWER CAPTCHA module, the POWER CAPTCHA widget is displayed in the selected sections or forms (in case the check mode is set to “Automatic” or “Manual”). An example is shown below for the newsletter form.

### Stay informed!

Stay in touch with the periodic OXID eShop-newsletter every couple of weeks. We gladly inform you about recent tips, promotions and new products.

You can unsubscribe any time from the newsletter.

We strictly refuse transferring your data to 3rd parties.

For subscription we use the so called "double opt-in" procedure to guarantee that no unauthorized person will register with your e-mail address.
